

Preliminary Information

PIT5849E Tail Lights Remain On After Passive Locking and/or Dead Battery

Product Investigation Review Required

Models

Brand:	Model:	Model Years:	VIN:		Engine:	Transmissions:
			from	to		
Chevrolet	Silverado 1500 LTD	2022	All	All	All	All
Chevrolet	Silverado 2500HD/3500HD	2022	All	All	All	All
GMC	Sierra 1500 Limited	2022	All	All	All	All
GMC	Sierra 2500HD/3500HD	2022	All	All	All	All

Involved Region or Country	North America
Condition	Some customers may comment that the rear tail / parking lights stay on and do not time out after exiting the vehicle and passive locking the vehicle. This condition can lead to a dead battery.
Cause	The cause of this condition is a BCM calibration issue.

Correction:

To correct this concern perform Customer Satisfaction Program [N212344990](#) "Turn Signals Remain On After Passive Door Locking".

In some rare cases, a vehicle may have the same symptoms as listed in [N212344990](#), but the vehicle is not involved in the customer satisfaction program. In these cases, to correct the issue reprogram the BCM with the latest calibrations.

Warranty Information

For vehicles repaired under the Bumper-to-Bumper coverage (Canada Base Warranty coverage), use the following labor operation. Reference the Applicable Warranties section of Investigate Vehicle History (IVH) for coverage information.

If involved in customer satisfaction program [N212344990](#), then follow the warranty information for [N212344990](#).

If NOT involved in customer satisfaction program [N212344990](#), then use the following labor operation:

Labor Operation	Description	Labor Time
